Vaccination records can be obtained from your veterinarian and can be emailed to info@alohapetresortandspa.com.

All forms and agreements can be found on your customer portal.

Bordetella (oral or injectable) must be administered at least 72 hours prior to your pet's arrival. The Bordetella nasal vaccination must be administered at least 48 hours prior to arrival.

All feline guests must be vaccinated accordingly and vaccinations must be current within one year.

Cats must be at least 12 weeks or older with one set of vaccinations and deworming performed. This precaution is taken due to the increased susceptibility of kittens to disease.

All guests must not have been exposed to any contagious diseases within a 30-day period prior to check-in.

Aloha Pet Resort and Spa takes all precautionary measures to ensure the health and well-being of every guest in our care through proper cleaning, disinfecting and fresh air flow through the resort.

Vaccine type and immunization protocol can influence the success or failure of vaccinations. Many factors may impair an animal's ability to develop immunity after a vaccination.

Owners agree and are aware that vaccinations do not protect against all communicable illnesses that may affect a guest.

HEALTH CARE GUIDELINES AND REQUIREMENTS

All guests must be free of communicable diseases and have no visible stitches or open wounds. Owners will need to certify that their pets are in good health and have not been sick in the last 14 days. Guests who have been ill with a communicable condition in the last 14 days will require a veterinarian certification of health to be admitted or readmitted into the resort.

While guests are in our care they will be in contact with other pets. Please note that there are many different airborne strains of viruses that cause tracheobronchitis, also known as “canine cough”. While vaccinating every year helps support immunity to some of the strains, it does not support immunity to all airborne strains, nor can it completely eliminate the risk of developing tracheobronchitis. This is not due to any circumstance or condition at our facility and owners must agree that Aloha Pet Resort and Spa is not liable for any illness suffered by the guest during or after their stay, including, but not limited to tracheobronchitis.

Aloha Pet Resort and Spa will not be held responsible for any allergic reactions suffered by the guest. Owner certifies any and all allergies had by their pet are clearly communicated to staff upon check-in.

Aloha Pet Resort and Spa reserves the right to refuse to accept a guest if it appears to us that the guest is sick, shows the presence of fleas or their behavior could jeopardize the health and safety of other guests and our staff.

Older pets with special needs may need to be boarded closer to our staff based on availability of the facility.
